INDEX TO VOLUME XIX

Atkinson, F. V. The Abel Summation of Certain Dirichlet Series . 59

Bagemihl, F. A Theorem on Infinite Products of Transfinite Cardinal Numbers 200

Bochner, S., and **Chandrasekharan, K.** Summations over Lattice Points in κ-Space 238

Bowen, N. A. A Function-theory Proof of Tauberian Theorems on Integral Functions 90

Buchdahl, H. A. The Hamiltonian Derivatives of a Class of Fundamental Invariants 150

Chalk, J. H. H. On the Positive Values of Linear Forms (II) . 67

Chandrasekharan, K., see **Bochner, S.**

Chang, K. L. On Some Diophantine Equations $y^2 = x^3+k$ with no Rational Solutions 181

Chapple, M. T., see **Morton, V. C.**

Chowla, S., see **Vijayaraghavan, T.**

Davenport, H., and **Hall, Marshall.** On the Equation $ax^2+by^2+cz^2 = 0$ 189

Fuchs, L. A Condition under which an Irreducible Ideal is Primary 235

Good, I. J., and **Reuter, G. E. H.** Bounded Integral Transforms. 224

Hall, Marshall, see **Davenport, H.**

Hayman, W. K. Remarks on Ahlfors' Distortion Theorem . . 33

Heilbronn, H. On the Distribution of the Sequence $n^2\theta$ (mod 1) . 249

Higman, G. The Compacting of Topological Spaces . . . 27

—— A Theorem on Linkages 117

Kendall, David G. On the Number of Lattice Points inside a Random Oval 1

Kosambi, D. D. Systems of Partial Differential Equations of the Second Order 204

Lee, H. C. Isotropic Pseudo-orthogonal Transformations . . 81

Lighthill, M. J. Note on the Ultimate Form of Rotary Fluid Motion inside a Cylinder 65

Moran, P. A. P. A Class of Complex Markoff Chains . . . 140

Morton, V. C., and **Chapple, M. T.** A Point Representation of a System of Space Cubic Curves which pass through four given Points and whose Chords belong to a given Tetrahedral Complex 133

Pitt, H. R. A Note on Some Elementary Tauberian Theorems . 177

Rees, D. On the Ideal Structure of a Semi-group satisfying a Cancellation Law 101

Reuter, G. E. H., see **Good, I. J.**

Schwarz, Š. On Waring's Problem for Finite Fields . . . 123
—— On the Equation $a_1 x_1^k + a_2 x_2^k + \ldots + a_k x_k^k + b = 0$ in Finite Fields 160
Sengupta, H. M. On Continuous Independent Functions . . 129
Shah, S. M. The Maximum Term of an Entire Series (III) . . 220
Titchmarsh, E. C. Complex Fourier-Bessel Transforms . . 164
Varnavides, P. Note on Non-homogeneous Quadratic Forms . 54
Vermes, P. Note on a Two-point Boundary Problem . . . 109
Vijayaraghavan, T., and **Chowla, S.** On Complete Residue Sets. 193
